They know how to cure rheumatism in Pennsylvania! Mr. J. F. Meighan, a Pittsburg cigar dealer awoke one morning with an attack of rheumatism in his right arm. Working around the store during the forenoon made it worse. By noon the pain was so severe that he could not raise his hand to his head and had to carry his arm in a sling. One of his customers, on learning the facts, went across the street to E. E. Heck's drug store, and at his own expense procured a bottle of Chamberlain's Pain Balm and persuaded the cigar dealer to try it. It eased the pain and reduced the swelling so that by the next morning he could use his arm, and by the second morning was entirely well. This is only one of the many severe cases of rheumatism that have been cured by this valuable remedy. 50 cent bottles for sale by all leading druggists. m18

**A NEW SNOW PLOW.**—A new rotary snow shovel, just from the works at Patterson, N. J. reached Truckee last Monday for the S. P. Company. Tuesday morning, a number of railroad officials, including J. B. Wright, D. Burkhalter, H. J. Small, of Sacramento, and M. W. Cooley of Rocklin, came up to see it and witness a test to be made with it. Tuesday forenoon the new machine ahead of five engines went to plow out Strong's canyon siding. Only one engine, however was used in the work. Fine work was done, and in an hour's time after commencing, the entire siding, a quarter of a mile long, had been cleared of snow, and behind it the rail was left as neat as in summer. Had it not been for an accident, the work would have been done in less than half the time, besides the machinery was new and stiff. Those who viewed the work are highly pleased with the new machine and speak enthusiastically in its praise.—Truckee Republican.

**MUD SHEDS.**—The Sacramento Bee says: If the land slide business continues along the Oregon road it may be necessary to construct a number of mud sheds to serve as the snow sheds do in the Sierra Nevada. In fact one such shed has been built already to protect the roadway from land slides. This is eighty feet long and is situated near the mouth of tunnel 9, where so much difficulty has been experienced from slides. The mud sheds are so built that slides of earth pass over them and into the canyon beyond. Mud sheds would be a new thing in railroading if they should come to be generally adopted on the line, a not unlikely thing after the experiences of the past Winter, and one that would have been decidedly advantageous in many respects.

**A GLOVE CONTEST.**—The rumor is rife that a glove contest is about to take place in Winnemucca for \$100 a side between a San Francisco professor of the fistic art and a railroad man named McNally from Carlin. The affair is a kind of open secret, but it is known that the men are here, and the money is said to be up.—Silver State.

**GOING TO THE LAKE.**—The hotels at the resorts are rapidly filling up with guests and the landlords look forward to a long and prosperous season. This is now the most auspicious time to visit the mountains. Fishing is now excellent and the resorts offer attractions unexcelled by any other part of the state.—Truckee Republican.

**THE CASE CONTINUED.**—The case of Asa Hamilton against the Southern Pacific Company, which was set for trial in the United States Circuit Court at Carson this week, was postponed in consequence of the illness of General Passenger Agent Goodman, who is one of the principal witnesses for the railroad.
